

POWER - APPLICATION DEADLINE: 20TH FEBRUARY 2022

The Underground Electrical Power System at the Showgrounds is one of the most up-to-date installations in Australasia, with most supplies having Earth Leakage Circuit Breaker Protection.

You are advised that any electrical equipment that your company brings on to the Showgrounds, such as electrical cords, multi-plug boxes, refrigerators or any other appliances, comply with the latest relevant Safety Regulations and Codes. You are also advised to bring your own Portable Earth Leakage Units for your appliances, if an appliance becomes faulty it will trip your Unit rather than the main system.

Please note: All portable electrical equipment on site must have a current electrical testing tag, complying with NZ3760 wiring regulations.

The On Site Electrical Workshop is on the south side of the Main Arena, on the corner of Fincham Lane and Macfarlane Avenue. The Electricians will be on site during Show week.

» POWER FEE IS \$200.00 + GST PER EXHIBITOR SITE

If you need larger power supplies or three phase power, please email rebecca.dinmore@nztruckingassn.co.nz

If you require a power supply to your site, fill in the form below
